

SCREEN KEEP

Android TV signage device buying checklist

A hardware checklist for school networks, ethernet, support ownership, and screen placement.

Checklist

- Confirm the device can install Screen Keep from Google Play.
- Prefer built-in ethernet when uptime matters.
- Check Wi-Fi coverage at the exact screen location.
- Decide whether the TV, streamer, or all-in-one display owns the signage workflow.
- Plan remote support before the screen is mounted.
- Keep one spare remote, power supply, and HDMI cable available.
