

SCREEN KEEP

Digital menu board readability checklist

A restaurant-focused checklist for menu type size, pricing clarity, contrast, and daypart readiness.

Checklist

- Use large menu item names and prices that can be read from the counter.
- Keep contrast high and avoid busy backgrounds behind text.
- Group sections clearly and leave enough spacing between items.
- Make QR codes large enough for the actual viewing distance.
- Use separate breakfast, lunch, dinner, or after-hours URLs when useful.
- Test the board from the same angle customers will use.
